

CYPRESS
SURGERY CENTER

Dear Patient,

Here at Cypress Surgery Center we take medication delivery very seriously. We believe that you, the patient, are a key member of the team that needs to be involved in enhancing accuracy of your treatment. In order to provide the highest quality safe care, we would like to document the most accurate and complete list of your current medications for the day of your procedure.

Prior to your procedure, you will be asked to update your medical history in One Medical Passport and this will include all of your medications. Since this information is detailed and may be difficult to remember, we ask that you refer to your current medication bottles to complete this list. This will include the name, dose and frequency of each medication you take. Please include multi-vitamins, herbals, special creams or lotions, laxatives and any other over-the-counter remedies you take.

When you leave our facility, we will give you an updated list of your medications for you to take to your next provider of care.

We are dedicated to providing the highest quality, safest care possible, and we appreciate your partnership to support us in achieving this goal. Please feel free to contact us at (316) 634-0404 with any questions.

Sincerely,

David Grainger MD, MPH

Medical Director
